Shaun Booth is on a mission to transform our gardens. After graduating from Fleming College and working with a conservation authority, Shaun founded In Our Nature, a natural garden design company and native plant nursery. His work emphasizes low-maintenance, ecologically beneficial landscapes that welcome nature back into our lives. As co-author of the Globe & Mail bestselling book, *The Gardener's Guide to Native Plants of the Southern Great Lakes Region*, Shaun offers insights into the beauty and importance of native plants in our gardens.
